

Journeying together with hope and aspiration

At Parish, we value each person as they are, seeing every member of our school family as a precious, unique individual and treating them with **dignity**. Seeking first to understand through the building of relationships, we live in a **community** of **hope**. We aspire to enable each person to be a curious learner, inspired to develop the knowledge and **wisdom** to make the world a better place. We strive to encourage all to fulfil their God-given potential, having a confidence in transformation for the better.

Five at 5

Here at Parish we want our children to have wonderful experiences throughout their learning journey. This starts in Reception with 5 special things every child will get the opportunity to experience.

Visit All Saints Church with school

Bake bread

Watch eggs hatch

Go on a school trip to a farm

Stargaze

Journeying together with hope and aspiration

Visiting All Saints Church with school helps us to learn how our school is linked to the wider community. We learn how Christians celebrate and that people have different beliefs. This helps us to learn how to treat people with dignity.

Baking bread helps us to explore the skill of cooking, linking to hopeful aspirations for the future. We are developing wisdom by learning a new skill.

Stargazing is a wonderful spiritual experience that helps us connect to something bigger than us. It is a community event for us to experience together.

Hatching eggs is a lovely celebration of new life and allows children to marvel at creation. It fosters hope and community.

Going on a trip to a farm helps develop our wisdom by learning all about where our food comes from. It helps us learn about farming as a career, which links to our hopeful aspirations for the future.
